

## THAT REGISTER FAKE

About Twenty-six Cents Being Paid for Monroe County Wool.

## ENORMOUS QUANTITY OF 50 POUNDS

Of Choice Tub-Washed Wool Traded for Manufactured Goods—The Facts in the Case—How the Wheeling Democratic Organ "Put Its Foot in It"—The Guernsey County Story Also a "Fake."

To the Editor of the *Intelligencer*.

SIR:—As the *Wheeling Register* is trying so hard to make its readers believe that Monroe county, Ohio, wool growers are being offered 23 to 25 cents per pound for their wool, I desire to give the facts in regard to the matter as nearly as I can learn them. A great deal having already been said about a Mr. Alex. Harman, of this county, receiving 25 cents per pound for his wool, I took the pains to interview the gentleman. Mr. Harman says that he received from John Daniels, a local woolen mill man, 20 cents per pound for about fifty pounds of choice tub-washed wool delivered at the factory, payment to be made in goods manufactured at the factory. This makes the much talked about transaction simply ridiculous. The *Register's* correspondent from this place also mentions the names of two other gentlemen who were offered 25 cents by Mr. Daniels, and we presume they were also to deliver the wool and receive payment in goods. These are the only instances we have heard of in this county. A slight advance in price was noted when it was believed that the Democratic Congress could not agree upon a tariff measure; but that advance was lost almost as soon as it was learned that wool would be placed on the free list. John Daniels, the buyer referred to above, is an old gentleman, who owns and operates a small woolen factory at Stafford, in this county, manufacturing only for local consumption, and supplies only a small per cent of the blankets, skirts and yarns used in this county. He is very particular as to what kind of wool he buys, and will purchase only the very best tub washed clips, carefully prepared for his use. As a result he buys only a very small part of the wool grown in the county, and takes great pride in the superior quality of the goods he manufactures.

## IT IS NOT TRUE

That Wool Sold at 22 Cents in Guernsey County as the *Register* Says.

Special Dispatch to the *Intelligencer*.

CAMBRIDGE, O., Sept. 10.—The *Wheeling Register* quotes a gentleman from Wheeling who was on a business trip through this county, as saying wool was being sold for 22 cents a pound. The gentleman referred to is either very much mistaken or does not know what he is talking about, as there has been no wool sold in this county for more than 17 cents this season. Your correspondent saw William Rainey, one of the largest, if not the largest, buyers of wool in this county, yesterday afternoon, and showed him the article in the *Register*. Mr. Rainey said that there was not a word of truth in the report that wool was bringing 22 cents. "Two weeks ago," said Mr. Rainey, "wool was bought for 16 cents; now it is 17 cents a pound." He also said that if wool was bringing 22 cents in any part of this county he would certainly know of it.

## PEARSON CONDEMNED

By Speeches in the Jefferson County, Ohio, Democratic Convention.

Special Dispatch to the *Intelligencer*.

STUEBENVILLE, O., Sept. 10.—The Democratic county convention met here to-day. In numbers it wasn't large, but before adjournment it made up in liveliness what it lacked in other ways. When the motion was put to have the congressional delegates instructed to nominate a straight out Democrat it provoked several speeches denunciatory of Congressman Pearson and his record would have been unceremoniously riddled by Democratic leaders who have been carrying a knife had not a motion to adjourn preserved it intact and prevented other speeches. They were all then "loaded for war," and the feeling of the delegates made it manifest that Pearson has made more enemies than any other congressman in Ohio. No resolutions endorsing Brice or Cleveland nor denouncing them were offered.

The following delegates were selected to the state convention: Andrew Koehler, Daniel Gallagher, W. M. Trainor, Peter Elliott, John Dargatz, Dr. J. W. Collins, Joseph A. McGowan.

For county officers, John Bustard was nominated for commissioner and W. T. Bell for infirmity director.

The resolutions reaffirmed their devotion to the principles of Jeffersonian Democracy, and condemned the contemptuous disregard of those principles by public servants elected to carry them out. They favored a graded income tax, also a tariff on such articles as will produce the greatest revenue without undue profits to privileged individuals or trusts, and condemn all unnecessary expenditures as well as the issue of interest bearing bonds in time of peace upon any pretext whatever. They denounced the use of money in politics and favored scratching bootlickers.

## DIED OF HER INJURIES.

A Respected Lady of Fairmont Passes Away After Seven Years of Suffering.

Special Dispatch to the *Intelligencer*.

FAIRMONT, W. VA., Sept. 10.—Mrs. Maria Fleming, wife of Hon. M. L. Fleming, died at her residence near this town last night, aged about sixty-five years. She was thrown from a horse about seven years ago and has suffered from the injuries ever since, but has been able to attend to her usual duties until last Monday night, when she was taken suddenly worse, the cause being the injury in her side. She was the sister of William Vandervort, of Pocahontas county, and ex-Sheriff James Vandervort, of Weston, Lewis county, and Mrs. Martha Pierpont, of Harrieville, Ritchie county. She was well known and her death is sadly regretted by the entire community.

## MRS. STANFORD'S PLANS.

The Great Estate in Perfect Order—Great Things for the University.

SAN FRANCISCO, Sept. 10.—The *Examiner* says: Mrs. Stanford has paid off the last of the debts due from the Stanford estate and has thus early gotten its great properties in almost perfect order. She is now anxious for a distribution of the estate, so that she may secure personal control of the millions of which she is now executrix.

As soon as the distribution is ordered she will begin operations in a new field. Then, under her personal supervision, the erection of nearly half a million dollars worth of new buildings and the early extension of the university to three times its present magnitude will be begun.

It is stated that the debit side of the ledger has been cleared; the credit side has been ably attended to, and the hypothecated securities have been released. The three great estates, the Palo Alto, Gridley and Vina ranches, 8,000, 17,000 and 60,000 acres respectively, on which Senator Stanford lavished expense and experiments, have been put on a strictly business basis. Mrs. Stanford has now leased all of these properties in parcels, with the exception of the vineyard and stock farms and the land necessary for their maintenance, and the brandy at Vina, of which Senator Stanford never sold a gallon, is still going to Europe and elsewhere in immense quantities. The estate is nearly ready for redistribution, except for three claims that are pending. One is a suit for \$75,000, involving a horse, which is pending on appeal, and another is a suit for \$7,000 brought recently by a Palo Alto bookseller, who asserts some sort of a contract about supplying books to the university.

The other claim is the \$15,000,000 claim against the Stanford estate to which Attorney General Olney has presented on behalf of the government to Mrs. Stanford, as executrix.

This suit is an annoyance to Mrs. Stanford, because so long as it is unsettled it will prevent her from expending a dollar of the estate in behalf of the University.

This claim the executrix has repudiated. The estate will be tied up as long as the claim is pending. The Stanford attorney's are doing what they can to expedite a settlement. They are urging the attorney general to begin and push his suit, and have said that they will waive all objections based on technicalities which might otherwise delay a trial of the issue on its merits for years and until the claim is fully due. But a small portion of the alleged indebtedness will fall due in January 1895, when the first of the mortgage bonds are payable. The rest will fall due in several successful years thereafter. It has been a question with Mr. Olney as to his power to bring suit before the whole indebtedness is due.

Mrs. Stanford has been arranging to begin large operations at Palo Alto next spring. The present quadrangle and the few brick buildings in its rear are but the nucleus of the great groups of buildings planned by Senator Stanford, and his plans are to be carried out without change. The present quadrangle is to be enclosed by a larger and still more handsome one, and several groups of buildings are to flank it.

The plans for early enlargement of the institution include a large amount of new apparatus, the purchase of 50,000 books, the employment of a great many professors and instructors and the opening of new departments.

The plans for the future as settled upon include a conservatory of music which shall be equal to anything in America, the equipment of a great art school, departments of professional instruction, etc.

## BELLAIRES.

All Sorts of Local News and Gossip from the Glass City.

Another detective turned up and reported six saloon men to the mayor for violation of the Sunday laws. His name is Moore and reports that he had no difficulty in entering any of the places and getting what he wanted. Only one of the men put in an appearance and although he did not enter a plea he suggested to the mayor that he might as well impose the fine, but afterwards took till to-day to determine the matter. Mayor DuBois says this matter is distasteful to him, but every day he is amazed by persons who insist that the saloons run openly on Sunday and that he determined to find out whether he was being imposed on or not. He is beginning to feel that some of the saloons have persisted in violations. While most of them have been obeying the law.

The court house at Woodfield was well filled with Republicans last Saturday to hear the speech of Hon. Lorenzo Danford, their candidate for Congress, and the Republicans in old Monroe were never more enthusiastic or numerous than this year. Captain Danford was their choice and they seem determined to make his vote larger than for any candidate ever presented. That county has been good for 2,200 Democratic plurality, but if it shows up half of that this year it will be surprising.

William Worrall, the electric motor man who was arrested on complaint of his wife, charging him with failure to support his family, seems to come of good family and it was arranged yesterday evening to have him admitted to bail. He expresses a willingness to support the children, but says he will not support his wife, which is an offense in this state.

are through Canada and the New England States. The trip is to Ottawa, Canada, for a view of Chaudiere Falls as they appear when the crown of the ice-king is upon them, then through Lachine Rapids and on to Montreal to participate in the Winter Carnival which is held there. Thence we journey to Quebec and take a glance at its heights and battle grounds, then speed away to Montmorency Falls, Lake St. John, and the river of Death, through a region of great scenic beauty. Our trip is thereafter southward to the Green Mountains of Vermont, by lakes, rivers, falls, farm-lands, villages, and thence on into the heart of the White Mountains. Here curiosity, awe, grandeur and beauty are in company joining hands and holding a wondrous region in their embrace; we travel to the summit of Mount Washington and look away to the sea, and around upon an army of mountains seared with vast chasms, garlanded with heavy forests, silvered with running streams, jeweled with sapphire lakes, wonder breaking upon wonder,
